Shareclass Currency	EUR

CALENDAR YEAR PERFORMANCE (NET OF FEES)

RISK PROFILE

The SRI is calculated according to the PRIIPs KID methodology

CHARGES

Minimum investment Amount	1000000 EUR
Entry charge (%)	0.00
Exit charge (%)	0.00
Ongoing charges (%)	1.64
Annual Management Fee (%)	0.80
Performance fee (%)	No
Hurdle Rate (%)	No

OBJECTIVES & STRATEGY

The objective of the sub-fund is to select stocks with attractive performance potential, which will provide the sub-fund with a high return over the long term. Investors attention is drawn to the fact that the management style follows a systematic and disciplined selection and investment process. The sub-fund is actively managed with reference to the benchmark MSCI Daily Net TR Europe Euro. The composition of the subfund's portfolio may differ significantly from that of its benchmark index. A minimum of 75% of the net assets of the RAM (LUX) SYSTEMATIC FUNDS - EUROPEAN EQUITIES sub-fund shall be invested, directly or indirectly through derivative instruments, in the shares of companies that have their registered office, or carry out most of their business, or as a holding company hold significant stakes in companies that have their registered office in a Member State of the European Union, Norway or Iceland and that are subject to standard corporation tax or to an equivalent tax. With the remaining 25% of the net assets, the RAM (LUX) SYSTEMATIC FUNDS - EUROPEAN EQUITIES sub-fund may also invest in shares of companies that have their registered office, or carry out the majority of their business in territories other than those referred to in the previous paragraph, or holding companies with significant stakes in companies that have their registered office in these other territories. The sub-fund is classified as Article 8 under the SFDR regulation and is designed to achieve lower carbon intensity compared to the benchmark.

CUMULATIVE PERFORMANCE SINCE SHARE CLASS INCEPTION (NET OF FEES)

COST AND PERFORMANCE DISCLOSURE

Past performance is not a reliable indicator of future results. Future returns are not guaranteed, and investments may lose value due to market fluctuations. Currency exchange rates may negatively impact the fund's value or income. Performance includes ongoing charges but excludes any applicable subscription/redemption fees and investor taxes.

You can find the actual amount you might pay out from your financial advisor or fund distributor.

Please Refer to the glossary for further details

RISK DESCRIPTION

The risk category has been determined on the basis of historical data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time. The lowest category does not mean a risk-free investment. Repayment of the initial investment is not guaranteed. not applicable (normally all relevant risks should be captured in the synthetic indicator) Additional information concerning the risks of investment in the sub-fund is indicated in the corresponding section of the prospectus of the fund which is available at the Management Company and on the website www.ram-ai.com.

**Alpha**

Alpha is used in finance as a measure of performance. Alpha specifies the difference between the performance of the sub-fund and the theoretical performance of the market it is exposed to, indicated by the beta. Alpha is generally used to measure the added value of the portfolio manager. A positive alpha indicates that the sub-fund has performed better than the performance linked to its beta. The excess return of an investment relative to the return of the respective market exposure is the investment's alpha.

Beta

Beta represents a sensitivity of a sub-fund against market movements, it is used to evaluate systemic risk. Beta is a measure, through time, of the linear link between performances of the sub-fund and a benchmark. The beta is obtained by calculating the regression line of performance of the sub-fund above the risk free rate and the performance of the benchmark. A beta above 1 indicates that the sub-fund tends to amplify market movements whereas a beta below 1 tends to nuance such market movements, suggesting a more defensive approach.

Delta / Equity Sensitivity

The ratio comparing the change in the price of the underlying asset to the corresponding change in the price of a derivative.

Duration

The duration represents the length of time for which capital is "tied-up" in a bond investment. In contrast to residual maturity calculations, the concept of duration takes account of the time structure of returning cash flows (such as coupon repayments). The average duration of the portfolio is derived from the weighted average duration of the individual securities.

Max Drawdown

The Max Drawdown is a measure of extreme downward risk, corresponding to sub-fund performance calculated at the worst possible timing, i.e. between the highest and the lowest point of its value, neglecting price movements in-between. This measure represents the estimated possible maximum loss an investor could face on the given period.

Modified Duration

The "modified duration" is derived from the duration and provides a measure of the risk with which the sensitivity of bonds or bond portfolios to interest-rate changes can be estimated. A 1% increase (decrease) in the interest level accordingly produces a percentage fall (rise) in the price in proportion to the modified duration. For example: the modified duration of a bond fund is 4.5, the theoretical yield to maturity is 5.3%. If the yield drops by 1% to 4.3%, the fund price increases by around 4.5%.

Rating

The credit Rating is a parameter used by banks and lending institutions to determine whether an applicant is deserving of the confidence necessary for the granting of a loan. This parameter makes it possible to measure the risk of consumer default and determine the economic conditions applicable to consumers. The highest rating is indicated by the letters: AAA. This is the indication of highest financial security. This is followed by: AA, A, BBB, BB, etc. The lowest credit rating corresponds to the letter C. This letter identifies a high risk of financial default and is a figure taken into great consideration by each lending institution.

Sharpe Ratio

The Sharpe Ratio is a risk-adjusted performance measure, calculated as the performance of the sub-fund above the risk-free rate divided by the standard deviation of the performance. The higher the ratio the better the sub-fund has performed, as the sub-fund's marginal outperformance is higher per unit of risk. A negative Sharpe ratio indicates that the sub-fund has not outperformed the risk-free return.

SRRI (Synthetic Risk & Reward Indicator)

The SRRI represents the risk and return profile as presented in the Key investor document (KID).

Volatility

Amplitude of the variation of the price/of the value of a security, a sub-fund, a market or an index, measuring the importance of risk over a given period. Volatility is calculated through the standard deviation obtained through calculating the square root of the variance. Variance being the average of the squared differences of deviations from the mean. The higher the volatility, the riskier the security, the sub-fund may be.

Yield-to-maturity

Weighted average annual rate earned by an investor who buys the bond portfolio today at the market price and holds the bond portfolio until maturity, and assuming that all coupon and principal payments will be made on schedule.

Yield-to-Worst (YTW)

Weighted average potential annual rate that can be received on a bond portfolio without the bond issuers actually defaulting. The yield to worst is estimated by making a worst-case scenario assumptions on the issue by calculating the returns that would be received if provisions, including prepayment, are used by the bond issuer. Yield to worst may be the same as yield to maturity but never higher.

Performance Fees

Performance is charged on any returns that, subject to High Water Mark, the sub-fund achieves above its performance fee hurdle rate (if any). Please refer to the Prospectus for further information

Ongoing charges

Ongoing charges are based over 12 months of expenses ending the 31 December of the previous year. It is annually updated, but may be adjusted more frequently. Performance fees and portfolio transaction costs are excluded except in the case of an entry/exit charge paid by the sub-funds when buying or selling units/shares in another collective investment undertaking. Estimate of future charges is used for funds younger than 12 months.

Important Information

Important Information: The fund is a Sub-Fund of a Luxembourg SICAV with registered office: 14, Boulevard Royal L-2449 Luxembourg, approved by the CSSF and constituting a UCITS (Directive 2009/65/EC). This marketing document is only provided for information purposes to professional clients, and it does not constitute an offer, investment advice or a solicitation to subscribe shares in any jurisdiction where such an offer or solicitation would not be authorised or would be unlawful. In particular, the Fund is not offered for sale in the United States or its territories and possessions, nor to any US Person (citizens or residents of the United States of America). The information and opinions contained in this document were obtained from reliable sources at the time of publication. Note to investors domiciled in Singapore: shares of the Sub-Fund offered in Singapore are restricted schemes under the Sixth Schedule to the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations of Singapore. This document is confidential and is intended only for the use of the person to whom it was delivered; it may not be reproduced or distributed. There is no guarantee that the holdings shown will be held in the future. The investment described concerns the acquisition of shares in the Sub-Fund and not in a specific underlying asset. Past performance is not a guide to current or future results. There is no guarantee to get back the full amount invested. The performance data do not take into account fees and expenses charged on subscription and redemption of shares nor any taxes that may be levied. As a subscription fee calculation example, if an investor invests EUR 1000 in a fund with a subscription fee of 5%, the investor will pay EUR 47.62 on the investment amount to the intermediary, resulting in a subscribed amount of EUR 952.38 in fund shares. In addition, potential account-keeping costs (charged by the investor's custodian) may reduce the performance. Some shares in the Sub-Fund may apply a performance fee. Please refer to the section "Charges" and to the "Glossary" in this document for further details. Leverage intensifies the risk of potential increased losses or returns. RAM Active Investments may decide to terminate the marketing arrangement in place in any given country in accordance with Article 93a of Directive 2009/65/EC. Changes in exchange rates may cause the NAV per share in the investor's base currency to fluctuate. Particular attention is paid to the contents of this document, but no guarantee, warranty or representation, express or implied, is given as to its accuracy, correctness or completeness. Prior to any transaction, clients should check whether it is suited to their personal situation and analyze the specific risks incurred, especially financial, legal, and tax risks, and consult professional advisers if necessary. Please refer to the Key Investor Document and the prospectus, with special attention to the risk warnings, before investing. For further information on ESG, please refer to <https://www.ram-ai.com/en/regulatory-information> and the relevant Sub-Fund webpage under "Sustainability related disclosures". The prospectus, constitutive documents, and financial reports are available in English and French, while KIDs are available in the relevant local languages. These documents can be obtained free of charge from the SICAVs' and Management Company's head office and from www.ram-ai.com, its representative and distributor in Switzerland, RAM Active Investments S.A. For local information (similarly to what is provided for Austrian investors), documents are available on www.ram-ai.com or from Mediobanca Management Company S.A., 2 boulevard de la foire 1528, Grand-Duché de Luxembourg. A summary of Investors' rights is available on: <https://www.mediobancamanagementcompany.com/en>. Issued in Switzerland by RAM Active Investments S.A., which is authorized and regulated in Switzerland by the Swiss Financial Market Supervisory Authority (FINMA). Issued in the European Union and the EEA by the authorized and regulated Management Company, Mediobanca Management Company S.A., 2 boulevard de la foire 1528, Grand-Duché de Luxembourg. The source of the above-mentioned information (except if stated otherwise) is RAM Active Investments, and the date of reference is the date of this document.
